ORDER CODE 1HB2-N

DRUM HOOK WIDTH - 2-7/8"

NYLON DRUM HANDLING SLING

NYLON DRUM HANDLING SLINGS ARE SPECIFICALLY DESIGNED FOR THE EFFICIENT HANDLING OF 55 GALLON, RIBBED, METAL DRUMS. IT CAN BE USED TO LIFT OPEN TOP DRUMS, OR EVEN DRUMS FITTED WITH SPIGOTS OR PUMPS.

THE SLING CONSISTS OF A 2-INCH LOOP AND A 2-INCH CIRCUMFERENTIAL TIGHTENING BAND. THE LIFT LOOP IS PERMANENTLY ATTACHED TO THE TIGHTENING BAND, THUS ELIMINATING THE NEED TO POSITION THE LOOP FOR LIFTING.

THE TIGHTENING BAND SECURELY GRIPS THE DRUM BELOW THE FIRST RIB. **WHEN MAKING THE LIFT, KEEP THE LOAD LOW, LIFTING THE DRUM ONLY ENOUGH TO CLEAR THE GROUND.**
